Message from Mrs Ann Zabłud, OAM

President of the Zionist Federation of Australia

I am very pleased to take this opportunity to send greetings to the Perth community on this special occasion of the publication of the Community Youth Brochure.

Perth is the fastest growing of our State capitals and rapid development brings rapid change. It is important in such times to support youth and social services generally.

More than ever at this time of expansion and consolidation, the small numbers of professional communal workers and youth education officers assumes great importance in the life of the community. People now recognize the great difference that appropriate social services make to communities and a community which supports these services is one that understands the sources of its strength. Needless to say, community generosity is essential for the maintenance of proper and effective social services. I am glad that a good example has been set by the Perth Jewish community in its fund-raising efforts for its community worker.

Where the youth are committed and involved in the general life of society, that society has a marvellous future ahead. My congratulations to the community on the way it has prioritised the needs of the young. My best wishes for the future.
