W. Conf. Resolution} The 78 dunams of land ^{are} required will shortly be at our disposal and we shall begin the fencing and forestry programmes and the construction of the general buildings. ^{The Macc. Village will be built.} ~~We are confident that we shall find staunch supporters in all the Branches. We shall build the Maccabiah Village.~~ We trust that the Holland Conference has been a source of inspiration, unification and enthusiasm as regards the erection of the Maccabiah Village both to the
